

## Post-Secondary Education Providers Approved for Nurse Aide Re-Competency Testing

Updated 04-02-19

If you are retesting, you may need to give them a copy of the screen print of your “verification of registry.” Go to this website and follow instructions: <https://www.nebraska.gov/LISearch/search.cgi> . The “verification of registry” informs the program personnel that you are eligible to retest. If your application is pending, you will need to take a copy of the letter from us telling you that you are eligible to test.
